

Mooncakes for the Community Distributing 100,000 Mooncakes

Organised by Towngas, our "Mooncakes for the Community" event took place for the eleventh consecutive year during the Mid-Autumn festival this year. With the support of over 50 charitable organisations, we distributed 100,000 low carbon mooncakes to the less fortunate. Since its inception in 2001, we have distributed over 900,000 mooncakes, helping to spread care and warmth within the community.

Low-Carbon Mid-Autumn Fun

We also organised a Towngas Low-Carbon Mid-Autumn Fun event to encourage Hong Kong's youngsters to lead a low-carbon life.

Officiating at the launch ceremony was James Kwan Yuk-choi, Executive Director and Chief Operating Officer of Towngas (second from right), together with Jan Lai Ming-chuen, Vice President of Green Sense, and young artists from the Sugar Club.

First Ever Original Low-carbon Cupcake x Mooncake

At the Creative Cupcake x Mooncake Workshop, Towngas Cooking Centre instructor, Kaley Leung, taught students at the event to turned sponge cakes into Cupcakes x Mooncakes. The cupcakes, with their colourful marzipan and green toppings, not only looked good, they also tasted, absolutely delicious.

Under the guidance of Towngas Volunteers, the children decorated their very special and colourful Cupcakes x Mooncakes.

Eco-Friendly Graffiti Lanterns

Graffiti artist PANTONE showed the students how to use colour pens and markers to create eco-friendly lanterns. Painting the lanterns with blessings and good wishes, the students were also able to incorporate low-carbon elements into these festive traditions.

Towngas also organised three Low-Carbon Graffiti Lantern Workshops in early September.

From 24 August to 13 September 2011, over 200 graffiti lanterns, as well as three "green" rabbits carrying low-carbon messages designed by the Sugar Club, are being exhibited at Youth Square in Chai Wan.

Excellence in Listed Enterprise Awards

(Right) John Ho Hon-ming, Chief Financial Officer and Company Secretary of Towngas, received the Award on behalf of the Company.

Highlighting our performance as one of Hong Kong's top companies in terms of corporate governance and management, we are delighted to receive an "Excellence in Listed Enterprise Awards" honour from CAPITAL WEEKLY recently. We are recognised for our successful business development both in Hong Kong and on the mainland, highly positive economic returns, as well as our commitment to social responsibility and sustainability. The winning of the award not only demonstrates that we are indeed helping to benefit our community, it also provides Towngas with the encouragement to move forward with confidence and thus to rise to even greater heights in the future.

Let's Join In - "No Air-Con Night"

Towngas is once again sponsoring Green Sense's "No Air-Con Night" this year. We are therefore calling on everyone in Hong Kong to turn their air conditioners off, from 7pm on 29 September to 7am the next morning, to save energy and reduce greenhouse gas emissions.

Each air conditioner emits 5.6kg of carbon dioxide for every eight hours of use. A tree needs three months to absorb this amount of carbon dioxide. If you respond to this "No Air-Con Night" campaign, you will reduce your carbon footprint and save energy and we will help to make the world a better place.
