

Towngas Introduces French Premium Kitchen Appliance Brand Scholtès Discover French Culinary Art in a Professional Kitchen

The Hong Kong and China Gas Company Limited (Towngas) has been committed to offering a full range of professional services for over 150 years. From a gas company supplying only fuel for street lamps to a leading utility company in the Greater China region, Towngas has not only lit up the city and offered safe and reliable kitchen solutions, but also contributed to a better environment for the locals and people living in the region.

Driven by an unrelenting pursuit of excellence and a vision to anticipate and meet market demand, Towngas proudly introduces Scholtès, the kitchen appliance expert from France, in March to offer a cooking experience completed with French culinary heritage and professionalism in a six-star environment.

Brand Philosophies

“The Taste of Perfection, since 1922” – Since 1922, Scholtès has infused its collections with a passion for culinary art to manifest its taste for perfection. Embodying excellence in every detail, Scholtès products perfectly fuse professionalism, and exceptional taste with outstanding performance. The elegant yet avant-garde design further complements the unparalleled quality.

Professionalism: Scholtès’ research and development team has developed a range of professional appliances with sophisticated and state-of-the-art technologies. Professional management system, cutting-edge technologies and self-developed intelligent programme guarantee high versatility, flexibility and simplicity of use, turning the kitchen into a world-class stage.

Excellence: Scholtès attaches high importance to tasteful design and performance excellence during product development, answering the need for innovation and performance. Excellence is also evident in the use of materials. High quality stainless steel and innovative assembling technology ensure perfection in every detail. The impeccable functions and timeless design cater to various needs, while the innovative features and simplicity of use allow you to enjoy culinary art and fun.

Timeless design: Scholtès endeavours to strike a perfect balance between functionality and aesthetics. Sleek lines and ergonomic design result in refined yet highly functional products. With perfection down to the finest detail, Scholtès’ collections seamlessly marry functionality, luxury and taste, setting new benchmark as the leading Europe premium

domestic appliance brand.

Michelin-star Culinary Experience

Scholtès' top-quality products also incorporate the insights of internationally renowned French chef Philippe Rogé and several Michelin chefs. Philippe worked closely with the engineers and designers to apply his rich experience and know-how to the product test so as to ensure quality excellence. Philippe also designed recipes for Scholtès products so that everyone can cook like a pro at home. Perfected by Scholtès' experts, the products with exceptional performance will help you conjure up the best tastes ever.

Innovative Pioneer in Kitchen Appliance Design

The story of Scholtès began with an urge to revolutionise domestic lifestyle. The constant search for innovation has shaped Scholtès into a leading European kitchen appliance brand name. After years of study and research, Scholtès has developed a collection of quality kitchen appliances with groundbreaking features. In 1923, Scholtès developed the first enameled steel cooker. Later in 1948, it launched the first domestic compact cooker, ushering in a new era of flame cooking. In the 1970s, Scholtès continued to innovate and scored a number of significant "firsts", including the launch of the first pyrolytic oven in 1969 and the first oven with a thermo-insulating door in 1993. In 2000, Scholtès introduced the first oven with automatic cooking programmes, further underpinning its leading position.

Scholtès' S³ Collection arriving in Hong Kong marries the expertise of the brand and its signature elegance. Exquisite craftsmanship and sleek stainless steel further highlight its uniqueness. The highly anticipated highlights include a 8kW power gas hob and a 70-litre built-in oven. The gas hob stands out with its high power level that allows easy and fast heat control and become the highest power in the market. The oven has a capacity of 70 litres, which offers plenty of culinary possibilities. The large oven can be divided into two individual zones operating at different temperatures. Its practical 45cm range, including a steam oven, pyrolytic oven, coffee maker, microwave oven and other products, such as chimney hood, wine cellar, refrigerator, dishwasher and washer dryer, are also available to perfect your kitchen and way of living.

Dedicated 6-Star Service Package

Committed to delivering six-star customer-oriented services, Towngas set up a dedicated 24-hour Customer Service Hotline (2232 1232) for Scholtès customers to answer all enquiries about maintenance, installation and other services. A three-year free warranty for spare parts is also offered.

Product Highlights:

S³ Collection

The S³ Collection features uniquely luxury kitchen appliances blending both professional performance and elegance. Most of the products are clad in stainless steel, and the appearance and components of every item are perfectly. A consistent look is ensured when appliances from the same collection are placed together. In addition to the standard sizes, Scholtès also offers the 45cm range to build a kitchen catering to every need.
