

**Towngas honoured with
Safety Management System (Other Industries) Gold Award
at the 14th Hong Kong Occupational Safety & Health Award**

(15 September 2015) On 11 September, the Hong Kong and China Gas Company Limited (Towngas) was honoured with the Safety Management System (Other Industries) Gold Award, Occupational Safety & Health (OSH) Annual Report Silver Award and the Safety Performance Award by Occupational Safety & Health Council at the 14th Hong Kong Occupational Safety & Health Award Presentation Ceremony. At the same time, U-Tech Engineering Company Limited, a wholly-owned subsidiary of Towngas, also received the Safety Performance Award. Such achievement is a recognition for our comprehensive safety management system, excellent safety culture and outstanding safety performance.

The “Hong Kong Occupational Safety & Health Award”, organised by Occupational Safety & Health Council, aims to honour organisations with remarkable performance in the field of OSH, and provide a platform for the industries to share their OSH best practices and valuable experiences. This year, over 400 projects from public utilities, government departments, construction companies etc competed for the awards in 9 categories.

Towngas Managing Director Alfred Chan said, “Safety has always been our top priority. We strive to ensure gas safety as well as the occupational safety and health of our employees. Winning the Safety Management System (Other Industries) Gold Award demonstrated that the Company has effectively carried out the safety management system, which includes planning, development and enforcement of safety policies, as well as assessment and verification of the safety measures implementation to achieve excellent OSH performance.”

Looking ahead, Towngas will adhere to the concept of continuous improvement to optimise the safety management system for further enhancement of the corporate safety culture. All employees will work together to accomplish our goal of “zero” accident and prevent any accidents from happening.
