

## News flash: The Hong Kong and China Gas Company Limited (3 HK) Sustainability Report 2017

Dear Investors & Analysts,

### The Hong Kong and China Gas Company Limited (3 HK) Sustainability Report 2017

(14 June 2018) I am pleased in advising that our Sustainability Report for 2017 has been issued. You may access the report via the hyperlink below:

I would like to highlight the following items for your information.

- The Hong Kong and China Gas has been a constituent of the Hang Seng Corporate Sustainability Index for 7 consecutive years since 2011
- We had engagements with seven groups of stakeholders in identifying 22 material aspects in the report

- Carbon dioxide emission per unit of Town Gas in Hong Kong has been reduced by 23% in 2017 compared with 2005. The target is for a reduction of 30% by 2020
- Inaugural green bonds were issued in November 2017, complying to the Green Bond Principles of International Capital Market Association
- Our new energy businesses focus on low carbon emission and utilization of industrial and agricultural wastes, e.g.,
  - Turning coal-bed methane into LNG (Liquefied Natural Gas)
  - Converting inedible waste oil into hydro-treated vegetable oil (a kind of bio-diesel)
- Our employees and customers volunteers provided 86,000 hours and 135,000 hours of voluntary service respectively to the communities in Hong Kong and Mainland China

Best Regards

**WK Lo**
