Recognising our achievements in environmental protection and sustainable development, Towngas received three awards in the "Hong Kong Green Awards 2012". Winning these awards - the "Corporate Green Governance Award - Grand Award", "Corporate Green Governance Award - Corporate Leadership" and the "Green Management Award (Corporate) - Gold Award", also gave us the corporation with the best performance in environmental governance ranking. The "Hong Kong Green Awards", organised by Hong Kong's Green Council, aims to identify and recognise corporations with outstanding achievements in green purchasing, green management and green governance.

Towngas honoured with two Green China 2012 - Environmental Protection Achievement Grand Awards

Towngas was also a big winner, receiving two grand awards for "Outstanding Creative Ideas for Environmental Protection" and "Outstanding Enterprises in Environmental Protection" at this year's "Green China 2012 - Environmental Protection Achievement Awards" presentation ceremony. This prestigious event is co-organised by the United Nations Environment Programme Foundation in conjunction with environmental protection organisations from China, Hong Kong, Macau and Taiwan. Its objectives are to encourage and recognise corporations and individuals that have made a significant contribution to the growth of China's low carbon economy as well as the promotion of sustainable development in the environment.
