

## Support Our “Low Carbon Action!” Go Green with the Towngas eBilling Service

Towngas has launched eBilling service so that you can receive eBills at your designated email address, saving paper and the energy necessary for postage and delivery. We are also donating HK\$6 to Friends of the Earth (Hong Kong) Tree Planting Programme\*, towards the planting of 10,000 trees, for every customer who successfully signs up for our eBilling service. So sign up now and let's work together for a green future.

[www.towngas.com/eService](http://www.towngas.com/eService)

Note\* maximum donation: HK\$300,000

## Enjoy Our Convenient eServices

Register for eBilling service and gain a full range of online advantages including the ability to manage multiple gas accounts, settle payments online, keep track of your gas consumption and payment history, manage account settings, report meter readings, book maintenance appointments and stay posted on Towngas' latest news and offers.

## Low Carbon Action! Tips

These simple "Low Carbon Action!" tips will help you to lead a low carbon lifestyle with ease.

Reduce your carbon emissions by 316g annually by using our eBilling service.

Use flame cooking for a meal and reduce up to 920g in carbon emissions.

You can reduce carbon emissions by 9.5g simply by not using 1 set of disposable wooden chopsticks and plastic utensils.

A 10-minute shower consumes the same amount of water as having a bath. Save water and reduce carbon emissions by shortening your shower time to less than 10 minutes.

Watching television and working on the computer for long periods of time tire our eyes, and the radiation is not good for our health either. Spending 1 hour less on the computer alone reduces carbon emissions by 137g.

Make your pledge at
